Coping with COVID-19 and the lockdown
Coping with COVID-19

• Communicate at your child’s developmental level honestly, providing essential, need-to-know information:
  – Other resources: https://www.kerrysplace.org/covid-19-resources/

Coping with the Lockdown

• Schools and IEPS
  – Uncharted territory
  – Go online and look at your school or district’s website
  – Get familiar with the policies and procedures
  – Make sure you have a point of contact
  – Amendments to IEP
  – Extended school year/Compensatory education
  – Outside Providers: coverage, informing schools, risks
  – Opportunity for parents to document child’s present ability level and needs
  – Collaborative foundation: communication and self-advocacy

• Mental Health Concerns
  – Watch for signs your child is becoming more stressed or anxious
  – New behaviors or existing behaviors becoming more frequent, intense, or long-lasting
  – May appear more shut-down or withdrawn
  – Try talking to them to identify what’s upsetting them
  – Some regular services may be temporarily unavailable
  – New services being created to provide online support
  – Reach out to regular care team first (therapist, pediatrician, family doctor)
  – Consult with them about latest information regarding services, medication changes, etc.
  – Helpful to have a “crisis plan” prepared in advance
  – In the event that an ER visit is necessitated, call ahead to make sure they’re able to assist non-Covid patients
  – Take care of your own mental health!
Coping with the Lockdown

- Developing routine and predictability
  - Collaborative – choices, sense of control
  - Attainable – feasible goals per day
  - Using reinforcement system – tokens, immediate rewards
  - Identifying calming activities – videos, breaks, repetitive activities
  - Reducing sensory input – mindfulness room or spot, noise cancelling headphones
  - Daily physical activity – workouts, playing, yoga
  - Maintain regular bedtime routine – triggers, relaxation, quiet activities

Coping with the Lockdown

- Challenging Behaviors at Home
  - Directing child to safe space during meltdown
  - Stay calm as possible
  - Let the tantrum run its course
  - Avoid “bribes” or defaulting to screen time
  - Provide gentle statements – “Let me know if you need help calming down”, “I’m here for you when you need me”, “When you’re ready, we can read a book or have a treat”
  - Avoid complex sentences or detailed instructions
  - When calm, discuss, identify common triggers, or repeat instructions
  - Make child part of the team in setting up rewards and consequences
  - Good behavior should receive the reward and not taken away for later non-compliance
  - Follow up on consequences
  - Be flexible – if goals not met routinely, make goals smaller and more attainable

Steps for Responding to Disagreements

1. Keep your cool
2. Listen to the other person
3. Repeat what they said
   • “It sounds like you’re upset.”
4. Explain your side using “I” statements
5. Say you’re sorry
   • “I’m sorry you’re upset.”
   • “I’m sorry this happened.”
6. Try to solve the problem
   • Tell them what you’ll do differently
   • Ask them what they want you to do
   • Suggest what you want them to do
   • Keep your cool if you can’t solve the problem
   • Agree to disagree
   • Make sure to follow ALL the steps

Virtual Social Interactions

Virtual Communication

- Encourage child to stay in touch with friends
- Assist in planning virtual play dates or virtual get-togethers
- Social media could be a positive outlet during this crisis
- Online socialization should be encouraged after provision of safety guidelines
- Collaboratively identify frequency of desired social interactions and amount of time spent online
